KRUTANIC
A LADDER FOR BRIGHTER FUTURE

About Us

"Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world. "

CLOUD COMPUTING

Why Cloud Computing?

- Enables on-demand access to scalable computing resources, reducing infrastructure costs.
- Supports faster deployment, innovation, and time-to-market for modern applications.
- Powers key technologies like AI, big data, IoT, and DevOps with flexible infrastructure.
- High global demand for skilled cloud professionals across industries and startups.
- Offers secure, reliable, and accessible solutions for storage, computing, and networking.
- Essential for remote work, digital transformation, and global business continuity.

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

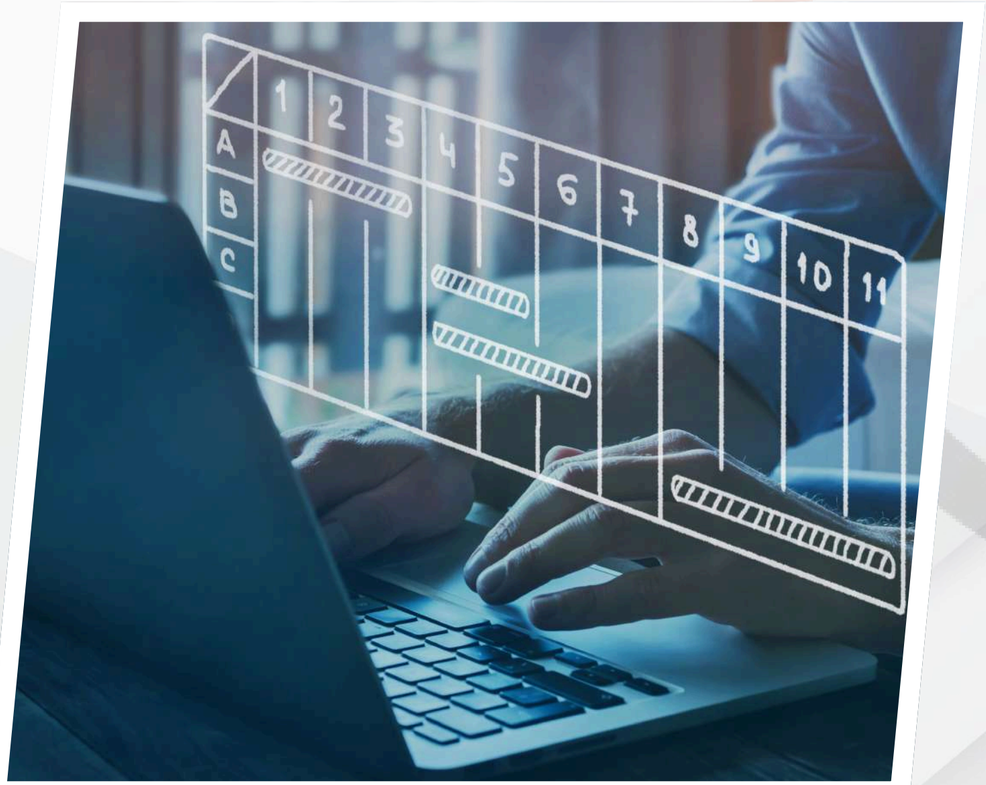
RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

2nd MONTH



REAL TIME PROJECTS

Two real time industrial projects One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

- Introduction to Cloud Computing
- Cloud Service Models (IaaS, PaaS, SaaS)
- Virtualization and Containers
- AWS Essentials
- Microsoft Azure Fundamentals
- Google Cloud Platform (GCP) Overview

Modules Overview

- Storage and Database Services in Cloud
- Networking and Security in Cloud
- Serverless Computing and Functions
- Infrastructure as Code (Terraform)
- Cloud Monitoring and Cost Management
- Capstone Project & Interview Preparation(only for placement assistance program mock interview preparation)

Curriculum included

MODULE 01

Introduction to Cloud Computing

- Evolution and benefits of cloud computing
- Public, private, and hybrid clouds
- Use cases and industry applications

MODULE 02

Cloud Service Models (IaaS, PaaS, SaaS)

- Key differences and examples of each model
- Choosing the right model for a business need
- Popular providers and services

MODULE 03

Virtualization and Containers

- Virtual machines vs containers
- Introduction to Docker and container orchestration
- Benefits of containerized deployment

MODULE 04

AWS Essentials

- Core AWS services: EC2, S3, RDS, IAM
- AWS Management Console walkthrough
- Creating and managing instances

Curriculum included

MODULE 05

Microsoft Azure Fundamentals

- Azure portal and services overview
- Creating virtual machines and databases
- Azure Active Directory and role management

MODULE 06

Google Cloud Platform (GCP) Overview

- GCP console and core services
- Deploying apps and managing resources
- Identity and Access Management (IAM)

MODULE 07

Storage and Database Services in Cloud

- Object vs block storage
- Cloud-based databases: RDS, BigQuery, Cosmos DB
- Backup and disaster recovery strategies

MODULE 08

Networking and Security in Cloud

- Virtual Private Cloud (VPC) setup
- Firewalls, VPNs, and security groups
- Cloud security best practices and compliance

Curriculum included

MODULE 09

Serverless Computing and Functions

- Introduction to serverless architecture
- AWS Lambda, Azure Functions, Google Cloud Functions
- Use cases and performance benefits

MODULE 10

Infrastructure as Code (Terraform)

- Basics of Terraform and configuration files
- Automating infrastructure deployment
- Integrating with cloud providers

MODULE 11

Cloud Monitoring and Cost Management

- CloudWatch, Azure Monitor, and GCP Stackdriver
- Setting budgets and alerts
- Resource optimization techniques

MODULE 12

Capstone Project & Interview Preparation

- Design and deploy a complete cloud solution
- Documenting and presenting the project
- Resume building, mock interviews, and certification guidance

Tools Included

Amazon Web Services (AWS)

Microsoft Azure

Google Cloud Platform (GCP)

Docker

Kubernetes

Students Reviews

Google

Ramshad K

★★★★★

I have gained a really hands on Experiance with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

Rajendra Prasad

★★★★★

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on Linkedin and scan that and found it 100% genuine and verified successfully.
It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.
I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

Sahad K

★★★★★

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from Al Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

Sunil Kumar

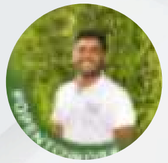
★★★★½

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding.
It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

Shubham Rai

★★★★★

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. Ive had the opportunity to attend two of their courses-Photography and Graphic
Designing-and both were simply



Aman Nema

★★★★★

Krutanic's Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing a strong foundation for building real-world web applications.
The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

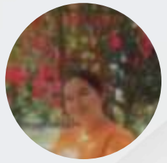
Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of Al and ML.

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! 🎉 It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!



Prabhleen Kaur

Just after few months of completion of my Al course I got my hands on attending Master class on Building Al agent without coding held in the month of March my experience was very good
I get to know about new things from my mentor Mr.Aashish Mishra
And at the end i recieved this ☺️
All thanks to Krutanic for giving me this opportunity.....

Rishabh Nagar

Certificate of Training Completion from Krutanic Solutions in the field of Android App Development Krutanic Paidi Venkata Chakravarthi Sir #krutanic #android #app #development #androidstudio

Himendra Shukla

Completing my internship at **KrutaniC** has been a transformative journey, equipping me with hands-on experience in **Full Stack Web Development** and preparing me for a bright future in tech. Grateful for the guidance, real-world projects, and skills gained — here's to innovation and success ahead! *

Career Opportunities in Cloud Computing

Cloud Solutions Architect

Design scalable, secure, and cost-effective cloud infrastructure and services for organizations.

Cloud Engineer

Develop, implement, and manage cloud-based systems and ensure smooth migration from on-premise setups.

DevOps Engineer (Cloud Focused)

Automate deployment pipelines, manage CI/CD, and integrate cloud tools for agile development workflows.

Career Opportunities in Cloud Computing

Cloud Security Specialist

Protect cloud infrastructure and data by implementing encryption, access controls, and compliance strategies.

Site Reliability Engineer (SRE)

Ensure cloud applications run reliably by monitoring performance, managing incidents, and automating operations

Cloud Consultant

Advise companies on choosing the right cloud platforms (AWS, Azure, GCP) and creating effective adoption strategies.

Certifications

01

Training Completion Certificate of Validates the skills which acquired

02

Internship Completion certificate certified by Accenture/Adobe

03

Letter of recommendation(LOR) for your JOB/PLACEMENT

04

Certificate of exellence (Based on you Performance)
